## SUMMARY

Enthusiastic and detail-oriented Full Stack Developer with a proven track record of delivering high-quality software solutions. Proficient in both front-end and back-end technologies, I adopt a holistic approach to development, encompassing everything from conceptualization and design to deployment and maintenance. Adept at collaborating with cross-functional teams, I leverage a strong foundation in problem-solving to create innovative and scalable applications. I utilize Agile methodology and Scrum practices to ensure efficient and adaptive project management.

## EXPERIENCE

- Gyanmatrix Tech, Coimbatore** APR 2024 - PRESENT  
Software Developer  
In my role, I design and implement scalable solutions that integrate seamlessly with MySQL databases, ensuring efficient and reliable software tailored to complex business needs. I manage both frontend and backend development, including configuring and optimizing nginx. This approach guarantees a cohesive and robust application infrastructure
- M8 IT Solution, Coimbatore** NOV 2022 - MAR 2024  
Associate Software Developer  
My role contribution is in product development using React, MUI, PHP, and Node.js, with a focus on e-commerce and ERP systems. I thrive in collaborative environments, working closely with cross-functional teams to deliver innovative and efficient solutions
- Fintechgie, Salem** MAR 2021 - NOV 2022  
Web Developer | Ux Researcher  
Develop a dynamic field of web development and UX research, I excel in crafting user-friendly websites with a keen focus on responsiveness. My expertise lies in seamlessly integrating PHP backend applications to enhance the overall functionality and user experience. .

## PROJECTS

### E-Commerce - Online Shopping Platform (M8 It Solution)

- Developed a comprehensive online marketplace platform with seamless integration of both backend and frontend features for a superior shopping experience.
- Designed and implemented a robust database to efficiently manage product inventory and user data.

**Technologies:** React, , Mysql , PHP ,Laravel , Node , Mongo DB

### TN Startup Web App (Gyanmatrix)

- Developed modules for the TNStartUp municipality app using TypeScript, MUI, React, Express.js, and Node.js, contributing to full-stack development and ensuring functionality through testing.

**Technologies:** React , Typescript , Node , Mysql , Nginx , AWS
